**N.B:**

**Dear Parents,**

Please make sure that all your children's books and materials are labeled.

**My Hygiene**

**Tip 1 (October 2018)**

A common phenomenon among younger students is “Head Lice”. This spreads very easily due to direct contact.

“As it’s easier to prevent than to treat”

\*\* These are some tips you should follow as precautions:

1. Put long hair in a ponytail or braid for girls and short haircut for boys.
2. Don’t share personal belongings (like combs, hats, scarves, jackets or towels)with others.
3. Avoid head to head contact with classmates.
4. No rubbing or scratching hair with dirty hands(kindly keep nails short to prevent infection spread )
5. Students should not keep their personal belongings in closed lockers.
6. “Tea tree oil” is an excellent repeller of head lice (Ten drops for every ounce of water in a spray bottle)
7. “Ligid” or “Iverzine” lotion should be used once weekly all the school year.
8. Kindly check household items that are more likely to get infested with lice and their eggs such as towels, beddings, rugs and pets.
9. Kindly check your servants’ hair regularly.

**Thanks for your cooperation**
